

Tennessee Statement

State Policy Analysis Division [interpretation of 13.04](#)

SAMMIE collects information through forms, registrations, and grant and scholarship applications in order to serve member libraries and their staffs. This information is used only for SAMMIE's programs and is not sold to other entities, whether for-profit or non-profit. In instances when SAMMIE partners with other library systems for workshops or continuing education, information gathered may be shared with these partners.

Some of the data collected is classified by law as public data, which means that anyone has a right to access it. Some data is classified as private data about individuals, or other nonpublic data, which means that the data is not available to the public without the data subject's consent.
