

## Supply List

- Mop head (Dollar Tree)
- Foam cone-2.87 by 7.25 inches (ordered on amazon)
- 1 inch Wooden bead/knob (ordered on amazon)
- Sock (purchased from target)
- Twine
- Hot glue gun

## Instructions

Start by cutting the strands off a mop.

Fold them in half then measure where you want the beard to start on the foam cone. Put a dot of hot glue on and hold it for a few seconds.

Continue around the whole thing.

Pull each mop string apart (it should make 4 single strands) to make the gnome fuller.

Push the bottom of a sock up inside of it to make the hat. Slip it on top of the cone. Tie the hanging piece with a piece of red twine.

Hot glue the wood bead on for the nose.
