

## **Supply List for Kit**

For each spider three circles — two large and one small (I used 4" and 2")

Staple a straw to one of the large circles

8 strips of paper (approximately 1/2" x 8-1/2")

Glue Stick

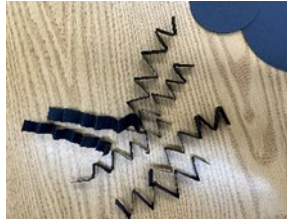

Stick on Googly Eyes

Instructions that were enclosed in each kit are below

## Very Busy Spider Craft

Supplies are included to make 2 spiders – one large one with a straw to make him move and dance and a small one.

To make legs fold each strip back and forth as shown.  
Glue 4 legs to each side of the body.

Put glue all over the body and place the circle of the same on top to enclose the straw inside.  
Put glue on one edge of the smaller circle for head.

Glue in place. Select a pair of eyes from the stickers provided.

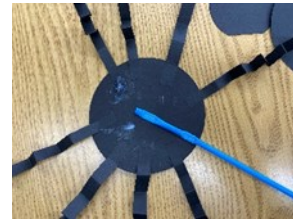

Repeat this process with the smaller circles to make a small spider.
