

## SUPPLIES:

3 disposable cookie sheets

2 templates-oval & leaf

Paint

Paintbrush

Green ribbon or leaves

Scissors

Wooden shim

Paint stir stick

Glue gun

Sunflower

Burlap ribbon or leaves

## INSTRUCTIONS:

First, using the oval template, trace around to make 3 ovals, Then cut them out.

Next, paint the ovals white, orange, blue, or whatever color that you desire.

When dry, place two ovals next to each other, slightly overlapping them, and put glue on the overlap. Then glue the last oval in the center.

You can slightly bend the edges to create movement. Using a wooden shim, create a stem at the top of your pumpkin, by gluing it in place.

For support, glue a paint stir stick on the back.

Then add some leaves and a sunflower.

Last, add a tied off string on the back, so you can hang up your creation.

Enjoy!
