

# Book Birdhouse Project

## Supplies and materials:

- Birdhouse
- Book, Little golden book or other book of choice
- 2 templates
- Mod podge/glue
- Brush
- Paint

## You provide:

- Scissors
- Pen/pencil

First, paint all the edges of your birdhouse as well as the 2 perches. Let it dry.

Next, use your templates and choose 2 pictures for each template that you want to trace around and cut out. To cut out the holes, fold your large template in half and cut out the circles. Put your templates on your birdhouse to see if you need to do any trimming.

Then you will take mod podge/glue to paint it on one side at a time of your birdhouse. Then place the template over the mod podge/glue and mod podge/glue over the paper page too. Let it all dry.

Next, remove all the pages out of the book, put them aside and then you can mod podge/glue the roof and attach the outside cover as a roof for your house. You may use the point of your scissor to poke a hole in the book for the hanger to be on the outside or leave it as is.
